

# Looking at Community-based Learning in Women through the case of Khwaab

Bhavna Rawat  
(Learning, Education, and Technology)  
University of Oulu

# SDG 4: Target 4.3

*By 2030, ensure equal access for all women and men to affordable and quality technical, vocational, and tertiary education, including university.*

---

What role can community-based  
learning spaces play in achieving  
Target 4.3?

# The Case of Khwaab (2014-19)

Reconceptualising community-based interventions as Active Learning Sites

# Research Aims & Questions

R1. To understand trainers' perceptions about learning at Khwaab

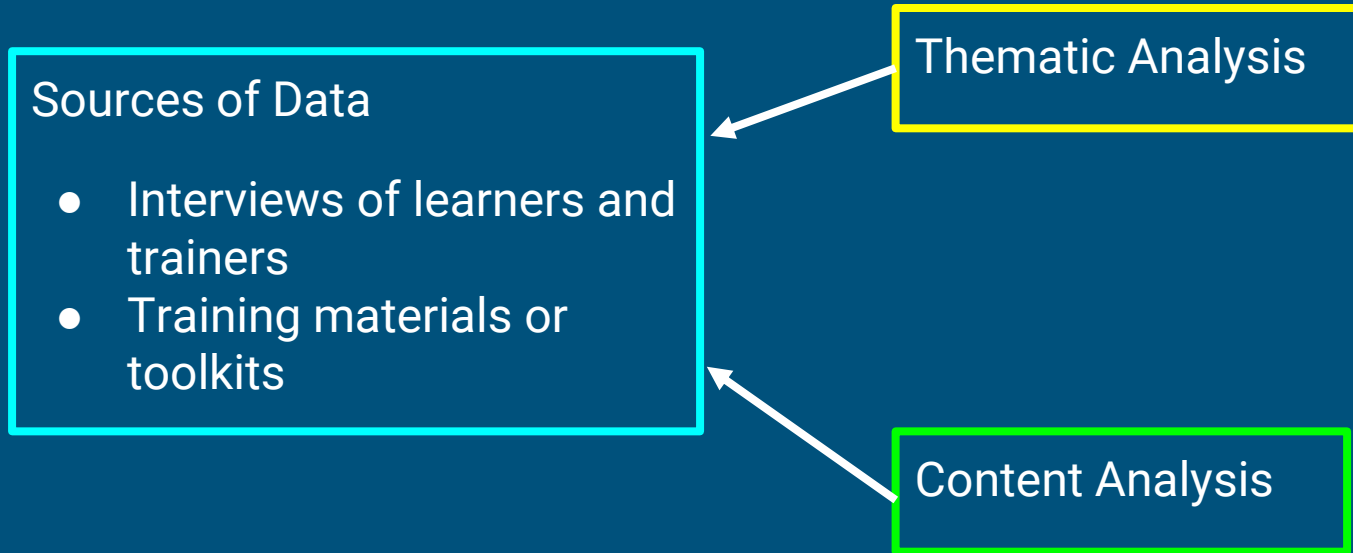

- a) What are the perceptions of trainers?
- b) How do these perceptions seem to influence the design of learning activities?

R2. To capture the voices of learners

- a) What meanings do they attach to their activities at Khwaab?
- b) How do they see these activities challenging the societal norms?

# Data Collection and Analysis
